

[Nature Methods, Vol. 7, No. 6, June 2010, p 413: Editorial](#)

The editorial deals with new genetic technologies in the rat and refers to the use of transposon mediated mutagenesis to knock out genes in rat spermatogonial stem cells, published by EURATRANS participant Z. Izsvak et al. in the same issue:

[Nature Methods 7 , 443 - 445 \(2010\)](#)

Generating knockout rats by transposon mutagenesis in spermatogonial stem cells.
